

The District of Columbia has rescinded the withholding tax rate decrease recently implemented in Pay Period 26, 2001. As a result of this decision, the tax withholding tables effective for Tax Year 2001 will be reinstated and used in computing the income tax withholding beginning with wages for Pay Period 04. The tax information previously issued in Bulletin 01-3, District of Columbia Income Tax Withholding, dated January 31, 2001, will continue to be in effect. No action on the part of the employee or the personnel office is necessary.

Bulletin 02-03, District of Columbia Income Tax Withholding, dated March 15, 2002, announcing this change is currently being mailed and posted to the NFC home page (www.nfc.usda.gov) at the Pubs & Forms site. The reinstated tax formula may also be found at the Pubs & Forms site once the update has been completed. We anticipate that both the bulletin and the reinstated formula will be accessible at the Pubs & Forms site on Friday, March 15, 2002.
